

## **APPLICATION BASICS**

### ***What is the Community and Neighborhood Planning Program?***

The Planning Department provides services to organizations that require assistance in developing a community or neighborhood plan - - a blueprint that guides future growth and development in your area. During the planning process, community stakeholders (residents, community groups, property owners, businesses, etc.) discuss issues (what works/what could be better), develop goals (where do you want to go), and create strategies (how to get from today to where we want to be). Plans include at least three basic elements: land use, transportation networks, and community facilities. Other specific issues identified by community members also can be addressed by the plan.

### ***What is a Plan?***

Neighborhood Plans focus on smaller geographic areas of about one square mile, 4,000 to 10,000 residents or at least 1,500 dwellings. Neighborhood Plans generally include the population necessary to support an elementary school. Community Plans focus on larger geographic areas that include between 20,000 and 60,000 people and several neighborhoods. Community Plans include the population necessary to support at least one middle or high school. Perimeter plans address areas near the city limits on the edge of the city and in the extraterritorial jurisdiction.

### ***What are the benefits of a Community Plan?***

Plans created with the involvement of the Planning Department are presented to City Council for formal adoption and become a component of the City's Comprehensive Master Plan. Although, no financial commitment is made with the adoption of a plan, the approved plan is used by City departments, boards, and commissions as a guide for decision-making. Key projects from plans may be selected for inclusion in the Annual Improvement Project Report to City Council as a part of the budget process. Plans also help communities organize their ideas into a single document that can be shared with residents, potential community partners, and investors.

### ***Who can apply for a Neighborhood or Community Plan?***

Neighborhood associations, community organizations, and other community-related groups are eligible to apply. The applicant organization must demonstrate its ability to recruit a Planning Team of as many stakeholder groups as possible who will participate in the planning process. Selection of participants is a competitive process.
